

Sourav Garai

Solutions Architect | AI & Automation Enthusiast | Building Real-World Digital Solutions

Burdwan, India · souravgarai.bwn@gmail.com · [linkedin.com/in/souravbwn](https://www.linkedin.com/in/souravbwn) · github.com/sourav-bwn · souravgarai.vercel.app

SUMMARY

I build software, AI tools and automation systems that solve real problems. I like turning an idea into a working product, learning new technology by building with it, and finishing the details: a score that updates without a reload, an answer that cites its source, a login that holds up. My interests run across AI, automation, web development and IoT.

EXPERIENCE

Full-Stack Web Developer · Self-employed (freelance)

Jun 2025 - present · India, remote

- Responsive web apps in HTML, CSS and JavaScript
- AI-powered and automation projects
- Open-source apps, designed and deployed
- Project planning, UI design and implementation

SELECTED PROJECTS (LIVE)

Academia LMS - Learning platform with student dashboard, admin panel, 360-question AI test bank, attendance and streak rules, ranks and certificates, role-based login. Express, Prisma, Postgres, Supabase. Live: rio-one-green.vercel.app

NeotiaBot - Independent demo of a retrieval chatbot that answers only from sourced pages and brochures, with citations, over 212 pages and 15 PDFs. Python, Flask, PyMuPDF, Gemini. Live: college-admission-rag.onrender.com

Telegram News Digest - Daily 7:00 AM IST news digest bot with 7 category buttons, run by cron and webhooks on a free plan.

Free Security Scanner - GitHub Actions setup that runs Semgrep CE on every push and opens deduplicated issues. github.com/sourav-bwn/free-security-scanner

God's Eye View - Hosted fork of an open source 3D globe on public data feeds, with the mobile layout reworked (original by Bilawal Sidhu).

EDUCATION

B.Tech, AI and Cybersecurity - The Neotia University

2026 - 2030

Class XII, Science - Burdwan Town School

NCC member

SKILLS

Build JavaScript, TypeScript, Node.js, Express, Prisma, Postgres, Python, Flask, HTML/CSS, APIs

AI & automation RAG, OCR, Gemini, AI coding agents, automation, ESP32 / IoT

Recon & secure OSINT, Semgrep, rate limiting, auth and hashing

ALSO

NEOpreneur pitch event at The Neotia University · National Space Day Quiz 2026 certificate · GitHub since 2022, 48 public repos
